Core Architecture:	Next.js 14 + Google Gemini 2.5 Multi-turn Streaming LLM Pipeline
Environment Config:	.env.local (GEMINI_API_KEY, AUTH_SECRET)

OPERATIONAL SECURITY & INCIDENT RECOVERY INSTRUCTIONS:

1. Store this credential directory securely. Do not transmit over unencrypted channels.
2. On Avora Library, clicking "Lock Console" in the top bar flushes session keys from memory.
3. Under no circumstances should email addresses or passkey formats be posted publicly.
4. For GBN Circle / Ditya password recovery, execute the local Node reset script on the host.
5. Zero Google Sign-in: Always use direct email and password authentication for client accounts.
6. Support & Inquiries: Contact administrative security operations immediately for key rotation.
